

Dialog Semiconductor raises 2009 guidance following strong trading over recent weeks

Kirchheim/Teck, Germany, 12 October 2009 – Dialog Semiconductor plc (FWB: DLG), a leading provider of highly integrated innovative Power Management Semiconductor solutions, is pleased to announce that during September and into October 2009, Dialog has seen demand above expectation for its products used in smartphones and mobile audio devices and a resurgence in demand for automotive related products. This has translated into increased sales and a solid sales backlog as Dialog enters its traditionally strong fourth quarter.

Q3 09 revenue is approximately \$59 million and Dialog believes that revenues and operating profits for the full year 2009 should break through the \$200 million and 10% margin levels respectively.

A full update on the Q3 09 trading performance will be given with the results announcement on 27 October 2009.

Note to editors:

Dialog Semiconductor creates energy-efficient, highly integrated, mixed-signal circuits optimised for personal mobile, lighting & display and automotive applications. The company provides flexible and dynamic support, world-class innovation and the assurance of dealing with an established business partner. Customers with a significant contribution to revenue include Sony-Ericsson, Apple, Bosch and TridonicAtco.

With its unique focus and expertise in system power management, Dialog brings decades of experience to the rapid development of integrated circuits for power management, audio, display processing and control. Dialog's processor companion chips are essential for enhancing both the performance of hand-held products and the consumers' multimedia experience. With world-class manufacturing partners, Dialog operates a fabless business model.

Dialog Semiconductor plc is headquartered near Stuttgart with a global sales, R&D and marketing organisation. In 2008, it had more than \$160 million in revenue and was the fastest growing European public semiconductor company, achieving a growth rate of more than 85%. It currently has approximately 300 employees. The company is listed on the Frankfurt (FWB: DLG) stock exchange.

Forward Looking Statements:

This press release contains “forward-looking statements” that reflect management’s current views with respect to future events. The words “anticipate,” “believe,” “estimate,” “expect,” “intend,” “may,” “plan,” “project” and “should” and similar expressions identify forward-looking statements. Such statements are subject to risks and uncertainties, including, but not limited to: an economic downturn in the semiconductor and telecommunications markets; changes in currency exchange rates and interest rates, the timing of customer orders and manufacturing lead times, insufficient, excess or obsolete inventory, the impact of competing products and their pricing, political risks in the countries in which we operate or sale and supply constraints. If any of these or other risks and uncertainties occur (some of which are described under the heading “Risks and their management” in Dialog Semiconductor’s most recent Annual Report) or if the assumptions underlying any of these statements prove incorrect, then actual results may be materially different from those expressed or implied by such statements. We do not intend or assume any obligation to update any forward-looking statement, which speaks only as of the date on which it is made, however, any subsequent statement will supercede any previous statement.
