Note to editors:

Dialog Semiconductor creates energy-efficient, highly integrated, mixed-signal circuits optimised for personal mobile, lighting & display and automotive applications. The company provides flexible and dynamic support, world-class innovation and the assurance of dealing with an established business partner. Customers with a significant contribution to revenue include Sony-Ericsson, Apple, Bosch and TridonicAtco.

With its unique focus and expertise in system power management, Dialog brings decades of experience to the rapid development of integrated circuits for power management, audio, display processing and control. Dialog's processor companion chips are essential for enhancing both the performance of hand-held products and the consumers' multimedia experience. With world-class manufacturing partners, Dialog operates a fabless business model.

Dialog Semiconductor plc is headquartered near Stuttgart with a global sales, R&D and marketing organisation. In 2008, it had more than \$160 million in revenue and was the fastest growing European public semiconductor company, achieving a growth rate of more than 85%. It currently has approximately 300 employees. The company is listed on the Frankfurt (FWB: DLG) stock exchange.
