About Dialog Semiconductor

Dialog Semiconductor is a leading provider of integrated circuits (ICs) that power mobile devices and the Internet of Things. Dialog solutions are integral to some of today's leading mobile devices and the enabling element for increasing performance and productivity on the go. From making smartphones more power efficient and shortening charging times, enabling home appliances to be controlled from anywhere, to connecting the next generation of wearable devices, Dialog's decades of experience and world-class innovation help manufacturers get to what's next. Dialog operates a fabless business model and is a socially responsible employer pursuing many programs to benefit employees, the community, other stakeholders and the environment we operate in. Dialog's power saving technologies including DCDC configurable system power management deliver high efficiency and enhance the consumer's user experience by extending battery lifetime and enabling faster charging of their portable devices. Its technology portfolio also includes audio, Bluetooth® Low Energy, Rapid Charge™ AC/DC power conversion and multi-touch. Dialog Semiconductor Plc is headquartered in London with a global sales, R&D and marketing organisation. It currently has approximately 2,300 employees worldwide. In 2020, it had approximately US\$ 1.38 billion in revenue. The company is listed on the Frankfurt (XETRA: DLG) stock exchange (Regulated Market, Prime Standard, ISIN GB0059822006)
