## **About Dialog Semiconductor**

Dialog Semiconductor provides highly integrated standard (ASSP) and custom (ASIC) mixed-signal integrated circuits (ICs), optimized for smartphone, computing, IoT, LED Solid State Lighting (SSL) and smart home applications. Dialog brings decades of experience to the rapid development of ICs while providing flexible and dynamic support, world-class innovation and the assurance of dealing with an established business partner. With world-class manufacturing partners, Dialog operates a fabless business model and is a socially responsible employer pursuing many programs to benefit the employees, community, other stakeholders and the environment we operate in.

Dialog's power saving technologies including DC-DC configurable system power management deliver high efficiency and enhance the consumer's user experience by extending battery lifetime and enabling faster charging of their portable devices. Its technology portfolio also includes audio, Bluetooth® low energy, Rapid Charge™ AC/DC power conversion and multi-touch. Dialog Semiconductor plc is headquartered in London with a global sales, R&D and marketing organization. In 2015, it had approximately \$1.35 billion in revenue and was one of the fastest growing European public semiconductor companies. It currently has approximately 1,700 employees worldwide. The company is listed on the Frankfurt (FWB: DLG) stock exchange (Regulated Market, Prime Standard, ISIN GB0059822006) and is a member of the German TecDax index.
