

## **Dialog Semiconductor Wins GSA Award for Best Financially Managed Public Semiconductor Company**

*Dialog accepts a 2019 GSA award for financial achievements as stock price rises over 100% in the last year.*

**London, United Kingdom – December 9, 2019** – [Dialog Semiconductor plc](#) (XETRA:[DLG](#)), a provider of custom and configurable power management, AC/DC power conversion, charging and Bluetooth® low energy technology, was named the Best Financially Managed Semiconductor Company at the 2019 Global Semiconductor Alliance ([GSA](#)) Awards.

Now in its 24<sup>th</sup> year, the GSA awards recognize individuals and companies in the semiconductor industry that have demonstrated excellence in vision, innovation, execution and future potential within the industry over the past year.

“With over 30 years of proven expertise, Dialog’s growth strategy is built on a solid foundation of innovative product design targeting fast growing market segments including IoT,” said Jodi Shelton, president, GSA. “I am delighted to present this award to Dialog for its achievements in 2019.”

Public fabless and IDM semiconductor companies are awarded the Best Financially Managed Semiconductor Company Award based on a broad evaluation of their financial health and performance in a given year. Dialog won the category specifically for companies achieving greater than \$1 Billion in annual sales.

Dialog had a strong year marked by innovative product introductions and financial successes, with the stock price increasing by over 100 percent in 2019 along with several major announcements including the recent acquisition of Creative Chips to address the Industry 4.0 market.

“It is an honor to be recognized once again by the GSA for our achievements over the past year,” said Dr. Jalal Bagherli, CEO of Dialog Semiconductor. “We have a robust financial position which is allowing us to make targeted investments to expand our product portfolio. These investments are helping to build a vibrant mixed-signal business developing the solutions our customers need to compete in the smart connected future.”

### **About Dialog Semiconductor**

Dialog Semiconductor is a leading provider of integrated circuits (ICs) that power mobile devices and the Internet of Things. Dialog solutions are integral to some of today's leading mobile devices and the enabling element for increasing performance and productivity on the go. From making smartphones more power efficient and shortening charging times, enabling home appliances to be controlled from anywhere, to connecting the next generation of wearable devices, Dialog's decades of experience and world-class innovation help manufacturers get to what's next.

Dialog operates a fabless business model and is a socially responsible employer pursuing many programs to benefit the employees, community, other stakeholders and the environment it operates in. Dialog Semiconductor plc is headquartered in London with a global sales, R&D and marketing organization. In 2018, it had approximately \$1.44 billion in revenue and was one of the fastest growing European public semiconductor companies. It currently has approximately 2,100 employees worldwide. The company is listed on the Frankfurt (FWB: DLG) stock exchange (Regulated Market, Prime Standard, ISIN GB0059822006) and is a member of the German TecDax index.
